WASHINGTON NEWS

Dull Times in Senate and House—
The Harris Resolution As to
K. P. Sale Adopted.

Bill to Amend Navigation Laws Passed.

Washington, Feb. 15.—Senator Pettus (Ala.) secured the passage of a resolution, requesting the president, if not incompatible with the public interests, to inform the senate what action had been taken in reference to the murder of Segundo N. Lopez, a citizen of the United States, on the 11th day of April, 1896, in Cuba, by armed soldiers of Spain, commanded by Colonel Estruch. The resolution introduced yesterday by Senator Harris (Kansas) directing the attorney general to furnish the senate information as to the agreement reached by the government with the reorganization committee of the Union Pacific railroad concerning the Kansas Pacific branch, was laid before the senate. Senator Harris said the Union Pacific had, for a long time, attempted to influence congress and the officials of the administration to scale down the debt of that company to the government 60 per cent. One year ago last January, the company made arrangements with the Cleveland administration, by which the road was to be disposed of with a loss to the government of about \$28,000,000. Public sentiment was aroused from Maine to California, the demand of the people, he said, being, that they should not be swindled out of the enormous sum of money above mentioned.

Passed by the Senate.
Washington, Feb. 15.—The resolution of Senator Harris, relating to the Kansas Pacific railroad, has passed the senate. It is as follows: "Resolved, That the attorney general is directed to inform the senate if he authorized the abandonment of his expressed intention to redeem the first mortgage bonds issued by the Union Pacific railroad company on its eastern division, now the Kansas Pacific division of the Union Pacific railway, and ask the postponement of the sale thereof and for the appointment of a receiver therefor in the interest of the government of the United States; and also, if he authorized the agreement by which the said property is to be sold for the face value of the bonds, resulting in a loss to the government to the amount of \$6,624,107; and if the government has agreed not to be a bidder at said sale."

The Odell Bill Goes Glimmering.
Washington, Feb. 15.—By a vote of 10 to 3, the house committee on military affairs refused to report favorably the Odell bill authorizing the erection, erect or religion erect buildings for religious worship on any military reservation.

In the house, Mr. Payne (Rep. N. Y.), chairman of the committee on merchant marine, called up the bill to amend the navigation laws of the United States. Mr. Payne explained that the bill had been prepared by the treasury department and was designed to protect our seacoast trade along the Pacific coast, with Alaska. The bill passed without a division.

Representative Cox (Dem. Tenn.), from the committee on banking and currency, called up the bill to "better control and promote the safety of national banks." The bill provides that no national bank shall make a loan to the president or any other officer or employee of the bank, until such officer or employee has submitted a proposition for the loan, in writing, to the directors and it has been approved by a majority of them, and in no case shall a loan exceed the amount permitted by the law. The bill was passed.

The house has agreed to consider the Loud bill relating to second-class mail matter, on March 15 and 16.

Geo. H. Kopper, Capitalist, Dead.
Cleveland, Feb. 15.—Geo. H. Kopper, well known as a large stockholder of the Standard Oil company, died today, 60 years of age. He was noted for his liberality and benevolence.

Boys Buried by Falling Walls.
Pittsburg, Pa., Feb. 15.—The south wall of the Union Storage company building, which was destroyed in the big fire, of last Wednesday, fell today. A number of boys at play about the ruins were buried. Two were rescued alive. Parts of the wall still standing are in an extremely dangerous condition and searchers are in danger of being buried.

A Blue-Blooded Convict.
London, Feb. 15.—In the central criminal court today, Lord William Nevill, fourth son of Marquis of Aberavenny, charged with fraud in connection with the suit of "Sam" Louis, money lender, against Spencer Clay to recover a debt of \$11,111, due on two promissory notes, caused by Lord Nevill, pleaded guilty to fraud, but claimed he was not guilty of forgery. He was sentenced to five years' penal servitude.

The Spanish Rabble Wants War.
London, Feb. 15.—A special from Madrid says that the populace is greatly enraged owing to the belief that the Spanish cabinet apologized to the United States. The populace is bitterly opposed to such a course. The people prefer war to apology, thinking that Spain will suffer least thereby, as war would be exceedingly disastrous to the large commerce of the United States.

AMERICAN FRUIT.
German Deceit Regulating Imports—
Penalties for Contravention.

Berlin, Feb. 15.—The Reichsanzeiger is about to publish the instructions issued by the government for carrying out of the decree, regulating the imports of American fruit. The Bremen senate has already published instructions, going into effect yesterday, and other ports and revenue stations will follow suit. Contravention of restrictions are punishable by confiscation of the goods and a fine of 1,000 marks. Infractions of police regulations are punishable by a fine of 50 marks.

Miss Willard Ill.
New York, Feb. 15.—Miss Francis E. Willard, president of the W. C. T. U., is seriously ill of grip. The doctors entertain hopes of her recovery.

THE WEAVER STRIKE.

Looks Like a Failure and Will Fall Flat.

Lowell, Mass., Feb. 15.—From present indications the recommendation of the conference committee, advocating a general strike of the cotton mills working in southern New Mexico, cannot be said to be boiling at the present time, but it is simmering, and among the Republicans the simmer has an angry sound, while the Democrats go around with a self-satisfied smirk on their faces which is positively exasperating. The causes for this condition of affairs are many, some of them natural and reasonable, others difficult to account for and still others are personal and others caused by disappointment or dissatisfaction in the matter of appointments to offices.

Those Ungallant Yankees.
Boston, Feb. 15.—The house of representatives of the state assembly has defeated an attempt to amend the state constitution to give women the right of suffrage.

FORTY LIVES LOST

In the Burning of Steamer Clara Nevada—
Bound for Klondike.

Victoria, B. C., Feb. 15.—The steamer Clara Nevada, of Seattle, burned in Lynn, Canada, and the 40 men on board are supposed to have perished. The Nevada left Skagway for Juneau on February 5.

Chamberlain Guilty of Murder.
Colorado Springs, Colo., Feb. 15.—Shirley D. Chamberlain, charged with the murder of Herbert H. Kay, on Pikes Peak during the night of August 18, 1897, was found guilty of murder in the first degree, on yesterday, after a four days trial in this city.

Deadly Blizzard in Alaska.
Juneau, Alaska, Feb. 8, via Seattle, Wash., Feb. 15.—During the last four days a terrible blizzard has been raging all along the coast from the head of the Lynn canal to Fort Wrangle. Accounts differ as to the number of victims, varying from 17 to 27.

TERRITORIAL SIFTINGS.

Lincoln County.
Geo. L. Ulrich has returned to White Oaks from an extended eastern business trip.

The Old Abe, at White Oaks, is adding a number of men to the forces this week, and the stamps will be dropping again in a few days. Bert Timoney, Joe Reed, Ben Lund, George Queen and Harry Gallagher went to work in the mine on Friday.

A runner came in from Blue Water yesterday, conveying the information that the sheep of B. Michaels had been cut, and that 217 head were gone. The herd of Luciano Trujillo was also raided and 500 head driven off. The thieves were making in a northerly direction when the trail was last seen, and the theft was then reported to the officers. Sheriff Fritz and Henry Lutz left at once for the scene of the thieving and will attempt to trail the stolen sheep and apprehend the thieves, says the White Oaks Eagle.

Gallop Gleanings.

The growler is the curse of every community in these times.

Mr. and Mrs. W. H. Shaw welcomed a baby girl at their home on Friday morning.

Something in the way of a remonstrance should be made to the postoffice department regarding the abandonment of the Gallup-Farmington mail route, says the Gleaner.

Donna Anna County.

Several cases of smallpox are reported at Loma Parda.

Miss Kate Griggs, who has been visiting her brother, George, down at Casas Grandes, Mexico, returned to Mesilla the first of the week.

Miss Estanislada Marquez and Mr. Hideo Lopez were married, Wednesday, at Chamberlain. Mr. and Mrs. Frank L. Oliver acted as sponsors.

Frank L. Otis, chief clerk at the Mesquero Indian agency, was in Las Cruces for several days last week superintending the loading of flour by the Indians for the agency use.

The coyotes have been very bold at Rincon lately, some having passed through the town from one end to the other in broad daylight, and there is hardly a night that they are not heard.

Mr. Pearl Bailey is shipping his last carloads of apples from Brunswick. They go to San Antonio, Tex. This clears up the crop and Mr. Bailey expressed himself well satisfied with the result.

POLITICS IN SOUTHERN NEW MEXICO.

Silver Sentiment Growing—Democrats Are Hopeful—Fergusson's Candidacy Not to Be Smeared At—Pedro Perea, Sol. Luna and Tom Finical Talked of By Republicans—A Danger Signal to Republicans.

Special Correspondence New Mexican.
Las Cruces, N. M., Feb. 14.—Politics in southern New Mexico cannot be said to be boiling at the present time, but it is simmering, and among the Republicans the simmer has an angry sound, while the Democrats go around with a self-satisfied smirk on their faces which is positively exasperating. The causes for this condition of affairs are many, some of them natural and reasonable, others difficult to account for and still others are personal and others caused by disappointment or dissatisfaction in the matter of appointments to offices.

Probably the one great cause of encouragement to the Democrats in Grant and Dona Ana counties, is the rapid and inexplicable growth and spread of the free silver sentiment. Men who one year ago were silver men, in the sense that they thought the product of the American mines could be taken care of by the government, by excluding foreign silver, even if the ratio had to be changed, are now strong advocates of "free and unlimited coinage at the ratio of 16 to 1. Others who were staunch "gold bugs" have so far fallen from grace that they are occupying a dangerous middle ground and fast drifting into the free silver camp. Particularly is this true in the old silver camps. Mines are idle which once poured wealth into the pockets of the owners and employed many men, the "flush times" of silver days are gone with no prospect of ever returning. "Hope long deferred maketh the heart sick," and discouraged men are prone to try questionable experiments in finding a remedy for real or imaginary troubles.

Why this growing silver sentiment exists in this part of the territory is difficult to understand. Every business man admits that last year's business was highly satisfactory and that the prospects for the present year are more than encouraging. The Republican party, in less than a year, has, by protection and the maintenance of the purity of the circulating mediums, brought about a return of prosperity far greater than a majority of the people really expected, and as a rank Democrat in Deming said a few days ago "the country is good for three years more of good times, high prices for our cattle, and plenty of money."

Yet nine out of ten men say: "Yes, business is good, but we want more money; we must have free silver," and as a rank Democrat in Deming said a few days ago "the country is good for three years more of good times, high prices for our cattle, and plenty of money."

So far as the results of these conditions upon the Republican party in this district is concerned, the readers of the NEW MEXICAN are at liberty to draw their own conclusions, and if they conclude that for will fly in the coming campaign they will not go far wrong. Already the sound of the griststone as it puts a keen edge on the tomahawk and scapling knife fills the political air.

One subject that is receiving considerable attention is that of delegate. The general opinion is that either Hon. Pedro Perea or Hon. Sol Luna will be the nominee of the Republicans. As between them there seems to be no great difference in strength. Either will be acceptable to the party and will prove strong among the voters. There is, however, another Richmond in the coming gathering about his standard of following of no mean proportions and may prove a favorite in the convention. His initials in full are, Hon. Thomas A. Finical, of Albuquerque. That he is an avowed candidate no one seems to know. Any of his Democratic friends who have a bee buzzing in their bonnets would just as well swipe it to death now, for the Democratic convention will kill it if they don't. What the outcome of the election will be—well, that is some months ahead and will form the subject of another story.

Locally, there is not much stir among the politicians as yet. County candidates are yet in the woods waiting for the trees to be shaken, but that shake will doubtless bring down a bag full. As to candidates for the legislature from Grant and Dona Ana, both parties are in the position of a tenderfoot in the mountains—trying to catch his wind. Taking the situation all in all, it is sufficient to warrant a student of practical politics to pay it particular attention, and the results will probably surprise him, no matter what his opinion may be before that event takes place.

RED RIVER BUDGET.

Promising Mining Operations—Gold Hill Coming to the Front—About Some of the Prospective Producers—Personal Mention.

Special Correspondence New Mexican.
Red River, N. M., Feb. 13.—The Copper mountain tunnel is located on the south side of the river opposite town and just inside the limits. The locators are Jim Riff, Ed Hixenbaugh, Tom Funk and Charles Purdy, and they are steadily at work. They are in 80 feet, and, on Thursday last, cut into a vein of talc that is thoroughly mineralized, containing large quantities of very fine grained black ore. They are already in the talc several feet and are apparently not near through it. The deposit is probably quite large. No assay has yet been made, but, if this carries value equal to those carried by similar deposits near by, the boys will likely have a good thing.

Mr. F. Southers, just down from Gold Hill, reports two shifts at work on the Shoshone and taking out plenty of good ore. The owners, Gusdorf Bros., have expressed their determination to put in a mill on the Shoshone in the spring. Nearly all of the Shoshone ore is of such grade as will stand shipping, but the owners have decided to erect their own mill and let the shipping charges pay for it. This will undoubtedly prove the economical plan, as the Shoshone will be a steady producer, and under reasonably good business management, a dividend payer.

The mine owners and prospectors of the Gold Hill region are very much pleased with the recent action of the court of private land claims in cutting down the Hondo grant. They are glad to be on government land.

The Last Chance and Gold Mint, in the same region are producing some fine ore.

The Gold Mint is said to cover the same ground for which Governor Rountt once offered \$20,000.

Gold Hill will have something good to say for herself in the production of the yellow metal for 1898.

Mr. Abbott, manager for the Jayhawk company, has made arrangements with the smelter company for the use of their assaying outfit. Mr. Abbott proposes thoroughly to test, for the benefit of his company, all the various ores of the camp.

A jolly company of "old folks" made a "surprise" raid on Mr. and Mrs. A. K. Thompson, on Tuesday night last. Al. Thompson was rather knocked out but Mrs. T. was equal to the emergency and soon had the guests cared for. A very pleasant evening was spent at cards and in social converse.

Mrs. J. C. Libberghin gave a very enjoyable party to a large number of our society people at her residence on the corner of Main and West Second streets, on the evening of the 13th. Cards and dancing were the amusements.

The latest arrival, and youngest citizen in our town, registered at the home of Mr. and Mrs. Geo. Mallette, at 4 o'clock p. m., February 10. It is a fine large boy, nearly as large as his father now. Put as George has grown nearly a foot in the last 40 hours, he hopes to be able to keep ahead of the young men all well.

Mr. Freeman, of Petersburg, who has been sick nearly all winter, came down Bitter creek last evening on his way to Cuesta. He hopes the change in altitude will prove beneficial.

Mr. Mortinson, the La Jara freighter, came in last Thursday on his first trip since the holidays.

Mr. Smith, the Cuesta photographer, was in town yesterday on business and passed on over to Elizabethtown today.

Theo. Wild, who has a number of claims up Bitter Creek, returned to camp yesterday after an absence of a couple of months.

The warm and sunshiny weather is melting the snow very rapidly. All the exposed mountain slopes are bare, and it begins to look as though spring would soon be here. These beautiful days have produced an epidemic of "burro riding" among the school children. Every evening after school a dozen, more or less, of the lads and lassies are out for a ride. The kids seem to get more exercise out of it than do the little donkeys.
